Product

Fabric Real-Time Intelligence - Eventhouse

Azure Data Explorer

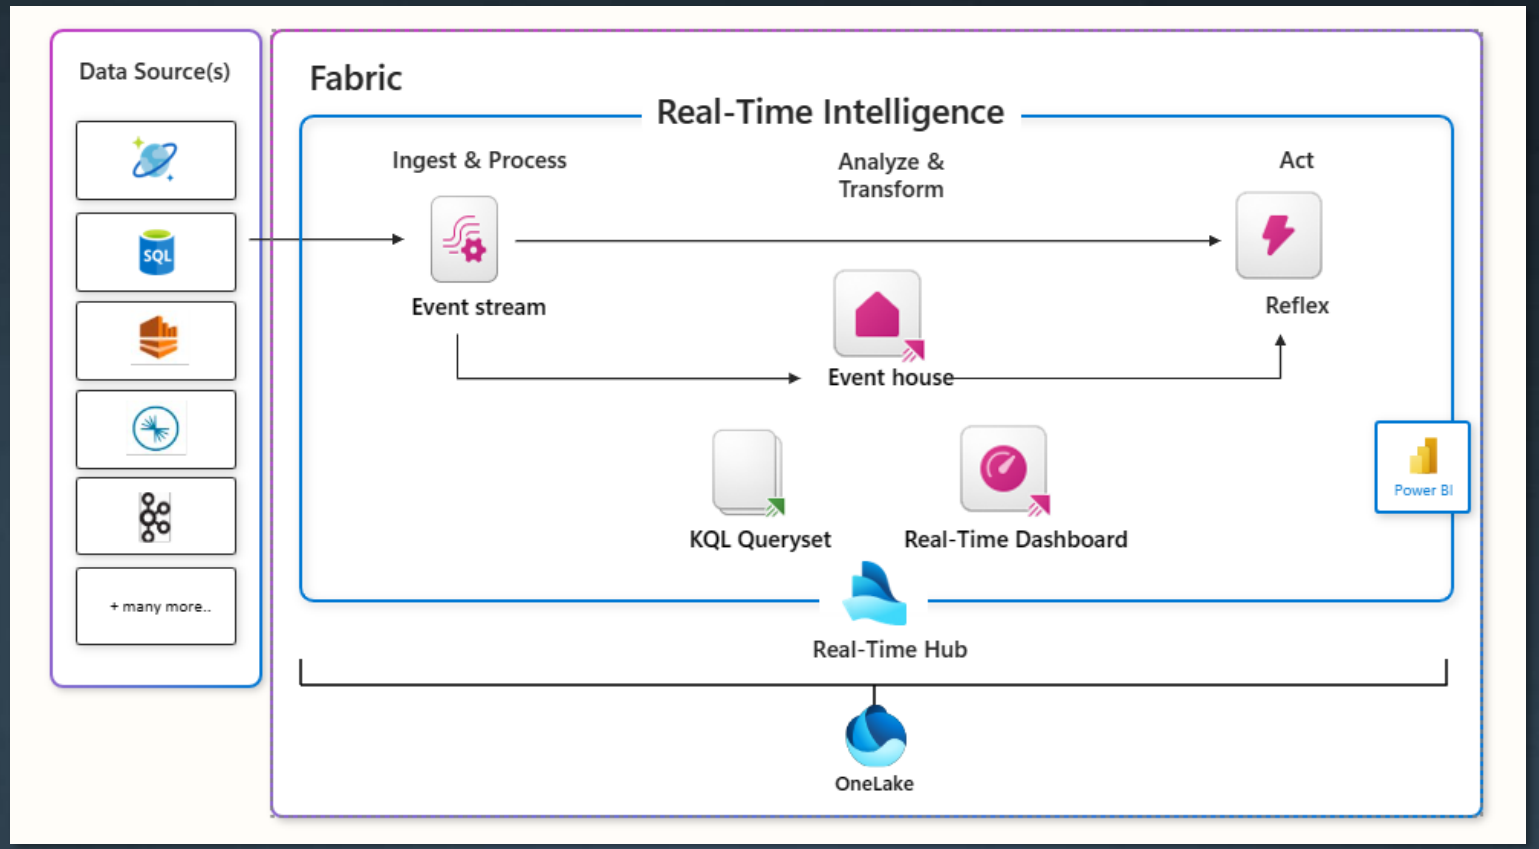
Kustainer

Tech Stack

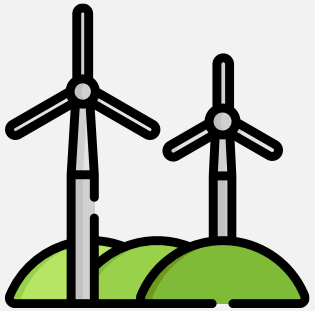
Kusto

What is Fabric Real-Time Intelligence?

Powerful end to end solution for data in motion

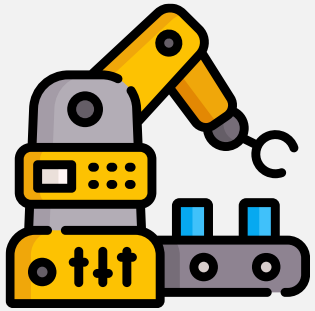


Use cases



Windmills

- Predictive maintenance
- Production
- Sensors



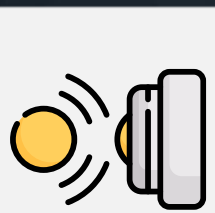
Manufacturing

- Throughput
- Sensors
- Bottlenecks

Race cars

- Telemetry
- Alerts
- Engineering output

Microsoft Fabric Real-Time Intelligence

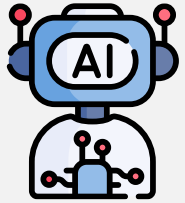


Event ingestion

Real-Time analytics

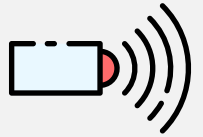
Real-Time dashboards

Real-Time triggers



Real-Time AI

Real-Time applications



Event driven actions

Real-Time Hub

Real-Time Intelligence

Power BI

Microsoft Fabric Real-Time Intelligence

Eventhouse
Ingest all your data fast and process it in near-real-time

Microsoft Fabric Real-Time Intelligence

Real-Time analytics

Materialized views

An always updated version of the underlying query.

Eventhouse
Ingest all your data fast and process it in near-real-time

Update policies

Loads data from source tables to one destination table based on a query
